

Heavy Duty Li-ion Broadcast Camera Battery

S-8210A/S, S-8260A/S

Introduction:

The SWIT S-8210A/S and S-8260A/S broadcast camera batteries adopt the new heavy duty lithium cells, which could constantly output up to 180W/15A high power to the cameras. Comparing to the normal 14.4V camera batteries, the new high power batteries work perfect and has longer life on Cine Cameras with relevant accessories that requires high power consumption. The build-in intelligent circuit has multiple protections of abnormal current, voltage and temperature.
